

## Assoc. Prof. Daniela Avetisyan, PhD

davetisyan@space.bas.bg

Associate Professor Daniela Avetisyan graduated from the Faculty of Geology and Geography of the Sofia University "St. Kliment Ohridski" with a bachelor's degree in Geography in 2010 and a master's degree in Physical Geography and Landscape Ecology in 2012. In 2018, she defended her doctoral degree with a dissertation on the topic "Study of Dynamics and Development of Degradation Processes Leading to Desertification Using Remote Sensing and GIS".

From 2013 to 2022, she worked successively as an ecologist, assistant, and postdoctoral researcher in the Aerospace Information Department at SRTI-BAS. The topic of her postdoctoral project was "Application of Remote sensing and GIS for Assessment of Ecological Sustainability and Functioning of Selected Agro-ecosystems in Changing Environmental Conditions". Since 2022, she has held the academic position of associate professor. In the same year, she was elected head of the department.

The scientific interests of Associate Professor Daniela Avetisyan are related to the application of aerospace information, remote sensing methods, and computer modeling to study the effects of climate change and anthropogenic activity on terrestrial ecosystems.

Dr. Avetisyan participated in a number of research projects related to the inventory of natural disturbances in forests, determination of the predicted status of ecosystem services in conditions of a changing natural environment, application of radar and optical satellite data for soil studies, determination of landscapes regulation capacity and their role in the prevention of catastrophic events, tracking the state and dynamics of snow cover in conditions of climate change, etc.

Dr. Avetisyan has been honored with a number of awards, including an award for an independent scientific work of a young scientist in the area of natural and mathematical sciences named after Professor Lotfi Zadeh in 2021. In 2019, she was honored with the "Professor Marin Drinov" award for a young scientist of the BAS for achievements in the scientific field "Astronomy, Space research, and Technologies".

Daniela Avetisyan is an author and co-author in more than 30 scientific publications.

## Management and participation in projects in the last five years

1. № 70-25-59/10.08.2022 (2022-2023) DEADDSPP “Destination Earth Antarctica – Digital Data Space, Pilot Project”. Funding institution: The National Centre for Polar Studies at Sofia University "St. Kliment Ohridski".
2. № КП-06-M64/1 (2022-2024) “Monitoring seasonal dynamics and stability of the snow cover in the mountain belt of the Republic of Bulgaria for a period of 10 years (2014-2024) using Remote sensing”. Funding institution: The Ministry of Education and Science of Bulgaria, Bulgarian National Science Fund.
3. № 4000134290/21/NL/CBi (2021-2023) FoReS „Forest Disturbance Inventory Using Remote Sensing“. Funding institution: The European Space Agency.
4. № ПМС 203/19.09.2018 (2019-2021) “Application of Remote sensing and GIS for Assessment of Ecological Sustainability and Functioning of Selected Agro-ecosystems in Changing Environmental Conditions”. Funding institution: The National Programme "Young scientists and postdoctoral researchers - 2", The Ministry of Education and Science of Bulgaria.
5. № ДФНП -17-42/26.07.17 (2017-2019) “Application of Remote Sensing and GIS for Determination of Predicted Status of the Ecosystem/Landscape Services in Changing Environmental Conditions”. Funding institution: The Ministry of Education and Science of Bulgaria.
